TOUCH 800 HEADLIGHT

For Model / Rendez le modèle / Para el modelo: 3056

We love the balance that the bicycle brings to the world and its power to make people, communities and the planet healthier. In addition to creating products that make cycling safer and more enjoyable, we pledge time, resources and profits to organizations working for sustainable transportation solutions.

Nous adorons l’équilibre que la bicyclette apporte dans le monde et sa capacité à rendre les gens, les communautés et la planète plus sains. En plus de créer des produits qui rendent le cyclisme plus sécuritaire et plus agréable, nous donnons du temps, des ressources et des profits à des organisations qui travaillent à développer des solutions de transport renouvelables.

Amamos el equilibrio que la bicicleta le aporta al mundo y su poder para hacer que las personas, las comunidades y el planeta sean más saludables. Además de crear productos que hacen que andar en bicicleta sea más seguro y placentero, dedicamos tiempo, recursos e ingresos a organizaciones que trabajan para obtener soluciones de transporte sostenibles.

INFORMATION / INFORMACIÓN

DOT reflector warning: Warning: This light is not meant to replace your CPC reflectors that came with your bicycle. Your reflectors should never be removed from your bicycle. Riding your bicycle at night is an inherently dangerous activity. No lighting system can protect you from nuisance motorists or road hazards. We recommend strict adherence to traffic laws, and the use of common sense, caution, reflective clothing and a helmet when riding in the dark.

Charging:
- Note: Be sure USB micro port on light is free of debris before connecting USB micro charging cable.
- Flashing blue light = charging
- Steady blue light = fully charged
- Red light = low battery, 20% of power remains

Battery care:
- Never store battery dead. Charge the battery after each ride.
- Lithium ion battery can lose a charge over time. Charge before riding if light has not been charged recently.
- Expected battery life is 500 charge cycles. Battery capacity run times can be reduced over time.
- If the light is stored long term, charge the battery every three months.
- Charge using approved USB charging device only.
- Light has auto shut off when light is fully charged, however, never leave light charging for more than 24 hours.
- Keep away from fire and extreme heat.
- Do not disassemble or modify. Doing so will void all warranty.
- Visit: www.planetbike.com for replacement parts.
Your light is shipped in its locked mode. To unlock, swipe toward three times. The light will flash rapidly for 1-2 seconds indicating that the light is now unlocked. While the light is in normal operation mode, swipe three times to return to lock mode. Again, the light will flash rapidly for 1-2 seconds indicating a return to the locked mode. Place light in lock mode when transported or stored in back pack or bag. Lock mode will help preserve battery life and prevent the light from being turned on accidentally while it is not in use. The light can get hot while in use. Failure to use lock mode as instructed could cause damage to the light, other personal property, injury, or death. Planet Bike is not responsible for damage as a result of not following product instructions.

Standard modes:
Once light is unlocked, swipe towards [on/mode] to scroll through the standard modes. Swipe towards [off] to turn off.
